MARCEL

Accurate lighting is critical to the image system,
and improper lighting can cause various image problems.
For example, Blooming or hot spots can mask sensitive
image information such as shadowing.

LMKJ-05-01-1540
마르셀 18등 골드

- Ø1,020×H1,080
- E14 LED 촛대구×18
(램프별도)

LMKJ-06-01-1120
마르셀 10등 골드

- Ø900×H850
- E14 LED 촛대구×10
(램프별도)

LMKJ-07-01-780
마르셀 8등 골드

- Ø800×H750
- E14 LED 촛대구×8
(램프별도)

MARCEL

Accurate lighting is critical to the image system, and improper lighting can cause various image problems. For example, Blooming or hot spots can hide sensitive image information such as shadowing.

LMKJ-07-02-560
마르셀 6등 골드

- Ø650×H650
- E14 LED 촛대구×6
(램프별도)

KRONA

Accurate lighting is critical to the image system,
and improper lighting can cause various image problems,
For example, Blooming or hot spots can hide sensitive image
information such as shadowing, In addition,
shadowing can cause incorrect edge calculations when measuring,
leading to inaccurate measurements,

LMKJ-08-01-640
크로나 15등

- Ø950×H700
- E14 LED 촛대구×15
  (램프별도)

LMKJ-09-01-460
크로나 8등

- Ø750×H530
- E14 LED 촛대구×8
  (램프별도)

KRONA CHANDELIER

Accurate lighting is critical to the image system,
and improper lighting can cause various image problems,
For example, Blooming or hot spots can hide sensitive image
information such as shadowing, In addition,
shadowing can cause incorrect edge calculations when measuring,
leading to inaccurate measurements,

LMKJ-09-02-320
크로나 6등

- Ø650×H500
- E14 LED 촛대구×6
  (램프별도)

ARMAN

Accurate lighting is critical to the image system,
and improper lighting can cause various image problems.
For example, Blooming or hot spots can hide sensitive image
information such as shadowing. In addition,
shadowing can cause incorrect edge calculations when measuring,
leading to inaccurate measurements.

LMKJ-10-01-768
아르망 10등 골드

- Ø920×H700
- E14 LED 촛대구×10
(램프별도)

LMKJ-11-01-390
아르망 6등 골드

- Ø600×H520
- E14 LED 촛대구×6
(램프별도)

LMKJ-11-03-80
아르망 1등 골드 벽등

- W120×D230×H280
- E14 LED 촛대구×1
(램프별도)

LMKJ-11-02-320
아르망 4등 골드

- Ø580×H500
- E14 LED 촛대구×4
(램프별도)

MIJAS SERIES

Accurate lighting is critical to the image system,
and improper lighting can cause various image problems.
For example, Blooming or hot spots can hide sensitive image
information such as shadowing. In addition,
shadowing can cause incorrect edge calculations when measuring,
leading to inaccurate measurements.

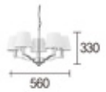

LMKJ-12-01-260
미하스 5등 화이트

- Ø560×H330
- E14 LED 촛대구×5 (램프별도)

LMKJ-12-02-260
미하스 5등 블랙

- Ø560×H330
- E14 LED 촛대구×5 (램프별도)

LMKJ-13-01-180
미하스 3등

- Ø500×H320
- E14 LED 촛대구×3 (램프별도)
  화이트, 블랙

LMKJ-13-02-66
미하스 1등 벽등 블랙

- W150×D210xH240
- E14 LED 촛대구×1 (램프별도)

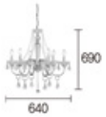

LMKJ-13-02-66
미하스 1등 벽등 화이트

- W150×D210xH240
- E14 LED 촛대구×1 (램프별도)

JASPER CHANDELIER

Accurate lighting is critical to the image system, and improper lighting can cause various image problems. For example, Blooming or hot spots can hide sensitive image information such as shadowing. In addition, shadowing can cause incorrect edge calculations when measuring, leading to inaccurate measurements.

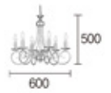

LMKJ-14-01-390
재스퍼 6등

- Ø640×H690
- E14 LED 촛대구×6
  (램프별도)

VIVIAN CHANDELIER

Accurate lighting is critical to the image system, and improper lighting can cause various image problems. For example, Blooming or hot spots can hide sensitive image information such as shadowing. In addition, shadowing can cause incorrect edge calculations when measuring, leading to inaccurate measurements.

LMKJ-15-01-380
비비안 6등

- Ø600×H500
- E14 LED 촛대구×6 (램프별도)

RAIMANG CHANDELIER

Accurate lighting is critical to the image system, and improper lighting can cause various image problems.
For example, Blooming or hot spots can hide sensitive image information such as shadowing. In addition,
shadowing can cause incorrect edge calculations when measuring, leading to inaccurate measurements.

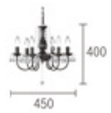

LMKJ-16-01-230
라이망 6등

- Ø530×H500
- E14 LED 촛대구×6 (램프별도)

ROEM CHANDELIER

Accurate lighting is critical to the image system,
and improper lighting can cause various image problems.
For example, Blooming or hot spots can hide sensitive image
information such as shadowing. In addition,
shadowing can cause incorrect edge calculations when measuring,
leading to inaccurate measurements.

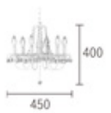

LMKJ-17-01-210
로엠 6등 블랙

- Ø450×H400
- E14 LED 촛대구×6
(램프별도)

LMKJ-17-02-210
로엠 6등 화이트

- Ø450×H400
- E14 LED 촛대구×6
(램프별도)

VELADA

Accurate lighting is critical to the image system,
and improper lighting can cause various image problems.
For example, Blooming or hot spots can hide sensitive image
information such as shadowing. In addition,
shadowing can cause incorrect edge calculations when measuring,
leading to inaccurate measurements.

LMKJ-18-01-390
벨라다 12등

- Ø700×H550
- E14 LED 촛대구 (램프별도)

LMKJ-18-02-64
벨라다 1등 B/R

- W120×D270×H320
- E14 LED 촛대구 (램프별도)

LMKJ-19-01-320
벨라다 8등

- Ø670×H550
- E14 LED 촛대구 (램프별도)

LMKJ-19-03-150

ELIS SERIES

Accurate lighting is critical to the image system, and improper lighting can cause various image problems. For example, Blooming or hot spots can hide sensitive image information such as shadowing. In addition, shadowing can cause incorrect edge calculations when measuring, leading to inaccurate measurements.

SIDE SERIES

Accurate lighting is critical to the image system,
and improper lighting can cause various image problems.
For example, Blooming or hot spots can hide sensitive image
information such as shadowing. In addition,

MILKY WAY SERIES

The atmosphere or brightness of the room varies greatly depending on what kind of light the space is finished with. If you want to make the room soft and comfortable, spread the light evenly on the floor, walls, and ceiling. If you want a stable atmosphere, it is effective to direct the light on the floor and walls, and if you want the room tolookspacious. Fluorescent lamps, such as midday sun light, are suitable for work areas such as study rooms and kitchens, and red incandescent lamps, such as sunsets, or light bulb fluorescent lamps are good for living rooms and bedrooms where you can relax your mind and body. Light bulb fluorescent lamps feel similar to incandescent lamps.

STARVE SERIES

Accurate lighting is critical to the image system,
and improper lighting can cause various image problems,
For example, Blooming or hot spots can hide sensitive image
information such as shadowing. In addition,
shadowing can cause incorrect edge calculations when measuring,
leading to inaccurate measurements.

INTERIOR WALL LIGHT

Whether You're Introverted or Extroverted:
The lighting in your room is a type of sensory stimulation
that influences your performance and mental state.
Well, not only does light affect your mood, but introverts
and extroverts have different thresholds for sensory stimulation.
If you are not sure about what style best fits your space,
we have lighting designers and specialists that will advise you.

INTERIOR WALL LIGHT

The atmosphere or brightness of the room varies greatly depending on what kind of light the space is finished with. If you want to make the room soft and comfortable, spread the light evenly on the floor, walls, and ceiling. If you want a stable atmosphere, it is effective to direct the light on the floor and walls, and if you want the room to look spacious. Fluorescent lamps such as the midday sun light are suitable for work areas such as study rooms and kitchens, and red incandescent lamps such as the sunset or light bulb type fluorescent lamps are good for living rooms and bedrooms where you can relax your mind and body. The bulb type fluorescent lamp feels like an incandescent lamp.

CEILING LIGHT

Whether You're Introverted or Extroverted:
The lighting in your room is a type of sensory stimulation
that influences your performance and mental state. Well,
not only does light affect your mood,
but introverts and extroverts have different thresholds
for sensory stimulation.
If you are not sure about what style best fits your space,
we have lighting designers and specialists that will advise you.

- LED 22W / 4000K / 3단 밝기조절

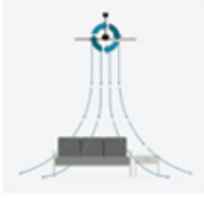

CEILING FAN SERIES

Accurate lighting is critical to the image system,
and improper lighting can cause various image problems.
For example, Blooming or hot spots can hide sensitive image
information such as shadowing. In addition,

SUMMER SEASON

시계방향 회전으로
시원한 바람을
바닥으로 내려주는 역할

WINTER SEASON

시계반대 방향 회전으로
고온공기 층화를
제거하여 따뜻한 공기를
효율적으로 재순환

Whether You're Introverted or Extroverted:
The lighting in your room is a type of sensory stimulation
that influences your performance and mental state.
Well, not only does light affect your mood,
but introverts and extroverts have different
thresholds for sensory stimulation.
If you are not sure about what style best fits your space,
we have lighting designers and specialists that will advise you.

OUTDOOR LIGHT

Whether You're Introverted or Extroverted:
The lighting in your room is a type of sensory stimulation
that influences your performance and mental state.
Well, not only does light affect your mood, but introverts
and extroverts have different thresholds for sensory stimulation.
If you are not sure about what style best fits your space,
we have lighting designers and specialists that will advise you.

FLOOR LAMP

Whether You're Introverted or Extroverted:
The lighting in your room is a type of sensory stimulation
that influences your performance and mental state.
Well, not only does light affect your mood, but introverts
and extroverts have different thresholds for sensory stimulation.
If you are not sure about what style best fits your space,
we have lighting designers and specialists that will advise you.
